

Campus Wide Seminars in Biomedical Sciences

Weekly Calendar

April 15, 2019 to April 19, 2019

Time	Activity	Speaker	Seminar Title	Location	Host/Series
Monday, April 15, 2019					
12:00 PM	Seminar	Deanne Taylor, PhD Rutgers University	Pediatric Genomic Research at Scale: Kid's First DRC and the Pediatric Cell Atlas	LSB Auditorium	Host: Derek Gordon
12:00 PM	Seminar	Ronald P. Hart, PhD Rutgers University	Lessons in Gene Expression: from Microglia to Mitochondria	CHINJ room 3209	Host: Arnold B. Rabson, MD
Tuesday, April 16, 2019					
10:00 AM	Seminar	Angela J. Fong, PhD Queen's University, Kingston, ON	Exercise for People with Cancer: Moving Reserch Into Practice	CINJ Auditorium A	Host: Sharon Manne, PhD
12:00 PM	Seminar	John A. Tainer, PhD MD Anderson Cancer Center	DNA Repair Structures and Mechanisms for Cancer Biology	CABM room 010	Hosts: Sam Bunting, PhD Gaetano Montelione, PhD
Wednesday, April 17, 2019					
12:00 PM	Seminar	Stephen Fesik, PhD Vanderbilt University	Cancer Drug Discovery Using Fragment Based Methods and Structure Based Design	Proteomics room 120	Host: Michelle Sanghera
4:00 PM	George and Lily Boxer Memorial Lecture	Riccardo Dalla-Favera, MD Columbia University Department of Development and Genetics	Diffuse Large B-cell Lymphoma: Pathogenic and Therapeutic Implications from Genomic Analysis	East Lecture Hall	Host: Jasmine Bolton
Thursday, April 18, 2019					

Campus Wide Seminars in Biomedical Sciences

Weekly Calendar

April 15, 2019 to April 19, 2019

Time	Activity	Speaker	Seminar Title	Location	Host/Series
Friday, April 19, 2019					
11:00 AM	Seminar	Dr. Steven P. Braithwaite Alkahest	Plasma Based Therapies for Cognitive Aging	Research Tower 123	Host: Dr. Maral Mouradian
3:30 PM	Seminar	Dr. Victoria DiBona Rutgers University	Fermentation Seminar: "Utilizing zebrafish as a model for understanding microglia morphology and function"	MSB Alampi	Host: Carol Hartman
