

**Campus Wide Seminars in Biomedical Sciences**  
 Weekly Calendar  
 December 10, 2018 to December 14, 2018

Time	Activity	Speaker	Seminar Title	Location	Host/Series
<b>Monday, December 10, 2018</b>					
2:00 PM	Seminar	<b>Andrew S. Greenberg, MD</b> Tufts University	Tissue Specific Roles for Acyl CoA Synthetases in Promoting Diet Induced Obesity	NJIFN and H Room 205	Host: Dr. Judith Storch
<b>Tuesday, December 11, 2018</b>					
11:15 AM	Seminar	<b>Matthew Moschitto, PhD</b> Northwestern University	Design, synthesis, and mechanistic evaluation of small molecules for the treatment of epilepsy, addiction, and cancer	Ernest Mario School of Pharmacy Room 249	Host: Longqin Hu, PhD
<b>Wednesday, December 12, 2018</b>					
9:30 AM	Seminar	<b>Haining Zhong, PhD</b> Oregon Health and Science University	Imaging Neuromodulatory Signaling in Space and Time	CHINJ Room 3209	Host: Zhiping Pang, PhD
12:00 PM	Seminar	<b>Biju Parekkadan, MD, PhD</b> Rutgers University	Building High-Throughput Expression Libraries From Genomes	Proteomics Room 120	Host: Michelle Sanghera
4:00 PM	Cancer Center Grand Rounds	<b>Xin Wei Wang, PhD</b> Center for Cancer Research National Cancer Institute	Precision Oncology in Liver Cancer	CINJ Auditorium A 1st floor	Host: X. F. Steven Zheng, PhD
<b>Thursday, December 13, 2018</b>					
12:00 PM	Seminar	<b>Ye-Guang Chen, PhD</b> Tsinghua University	Regulation of intestinal epithelium homeostasis by BMP signaling	Susan Lehman Cullman Lab. for Cancer Research Room 202	Host: Dr. Fang Liu
11:00 AM	Seminar	<b>Abdelfattach El Ouaamari, PhD</b> Rutgers University The Child Health Institute of NJ	Sensory Neuromodulation of Pancreatic $\beta$ Cells	FS and NS Conf. Room 120	Host: Laura Amador
<b>Friday, December 14, 2018</b>
