

Campus Wide Seminars in Biomedical Sciences

Weekly Calendar

February 4, 2019 to February 8, 2019

Time	Activity	Speaker	Seminar Title	Location	Host/Series
Monday, February 4, 2019					
10:30 AM	Seminar	Kevin Drew, PhD University of Texas at Austin	Mapping the molecular machines of the cell: human ciliopathy complexes and beyond	LSB Auditorium	Host: Marylou Carmona
11:45 AM	Seminar	Chongyuan Luo, PhD Salk Institute for Biological Studies	Single-cell epigenomic profiling uncovers regulatory diversity of brain cell types and diseases	LSB Auditorium	Host: Marylou Carmona
4:00 PM	Seminar	Martin Wuhr, MD Princeton University	Proteomics Clues to Cell Organization	CABM room 010	Host: Alexey Ryazanov, PhD
Tuesday, February 5, 2019					
4:00 PM	Seminar	Steve Nadler, PhD Aro Biotherapeutics	Two sides of the Immune System: Costimulation and Checkpoints	CABM room 010	Host: William Welsh, PhD
Wednesday, February 6, 2019					
12:00 PM	Seminar	Wonpil Im, PhD Lehigh University	Bacterial Outer Membranes and Interactions with Membrane Proteins	CABM room 010	Host: CABM and CIPR
4:00 PM	Cancer Center Grand Rounds	Qing Zhang, PhD University of North Carolina at Chapel Hill	Studying Oxygen Sensing Pathway in Cancer	CINJ Auditorium A	Host: CINJ
Thursday, February 7, 2019					
Friday, February 8, 2019					
8:30 AM	2019 Symposium	Microbiology at Rutgers - The symposium brings together microbiologists from across the Rutgers campuses in New Brunswick, Newark and Camden.	Microbiology at Rutgers University: Cultivating Traditions, Strengths, and Frontiers	Douglas Student Center	Host: Lindsay Robinson
9:15 AM	Seminar	Jeffrey Brodski, PhD University of Pittsburg Medical School	Endoplasmic Reticulum Diseases: Model Systems and Therapeutic Strategies	Foran Room 138 A	Host: Bill Belden
