

Campus Wide Seminars in Biomedical Sciences

Weekly Calendar

February 19, 2018 a to February 23, 2018

Time	Activity	Speaker	Seminar Title	Location	Host/Series
Monday, FEBRUARY 19, 2018					
12:00 PM	Faculty Candidate Seminar	Ying He, PhD, University of Illinois	Epigenetic and post-translational mechanisms in pain and addiction - microRNA and phosphorylation	CABM, Room 010	Host: Kiran Madura, PhD
Tuesday, FEBRUARY 20, 2018					
12:00 PM	Emerging Frontiers in Biomedical Research Seminar	Guo-li Ming, MD, PhD, University of Pennsylvania	Modeling human brain development and developmental diseases using hiPSC-derived organoids	CABM, Room 010	Host: Zhiping Pang, PhD
Wednesdy, FEBRUARY 21, 2018					
12:00 PM	Seminar	Amy Sarjeant, PhD, Cambridge Crystallographic Data Centre	Crystallizability and Other Predictions from the Cambridge Structural Database	Proteomics, Room 120	Host: IQB, Michelle Sanghera
12:00 PM	Seminar	Vitomir Djokic, PhD & Shekerah Primus PhD	Tick-borne microbial infections: a serious problem in New Jersey	NJMS, Newark, 225 Warren St., Room E230P	Host: NJMS, Nikhat Parveen
12:30 PM	Seminar	Neil Kothari, MD, FACP, Rutgers University, NJMS	Resident Well-Being: Fostering a Healthy GME Learning Environment	CAB 1302	Host: Neurology Grand Rounds
3:30 PM	Faculty Candidate Seminar	Monica Lee, PhD, Yale University	Akt-mediated regulation of endothelial functions	CABM, Room 010	Host: Kiran Madura, PhD
4:00 PM	Distinguished Lecture Series	David A. Chambers, Dphil. Division of Cancer Control and Population Sciences, NCI	Advancing Implementation Science to Improve Cancer Care and Health Outcomes	CINJ, Board Room 2003	Host: Sharon L. Manne, PhD,
4:00 PM	Seminar	Idhaliz Flores-Caldera, PhD, Departments of Basic Sciences and Ob-Gyn, Ponce Health Sciences University & School of Medicine, Ponce, Puerto Rico	Dissecting the genetic and epigenetic basis of endometriosis	RT, 4th floor conf. room, Room 400	Host: Dr. Jerry Langer, RUP-IMSD & SGS Biomedical Sciences NB / Piscataway

Campus Wide Seminars in Biomedical Sciences

Weekly Calendar

February 19, 2018 a to February 23, 2018

Time	Activity	Speaker	Seminar Title	Location	Host/Series
5:00 PM	Medicinal Chemistry Special Seminar	Percy Carter, PhD Vice President and Head Discovery Chemistry and Molecular Technologies Bristol-Myers Squibb	Thoughts on "Druggability": Lessons from Challenging Targets	Ernest Mario School of Pharmacy, Room 288 Busch Campus	Host: Elissa Glinn
Thursday, FEBRUARY 22, 2018					
Friday, FEBRUARY 23, 2018					
12:00 PM	Seminar	Zixu Mao, PhD, Emory University	Searching for ERICA, a New Cousin of ERAD in Proteostasis and Parkinson's Disease	Nelson, D406	Host: Qian Cai Department of Cell Biology and
3:00 PM	Seminar	Man Zhang, PhD, Rutgers University	The bioactivity, metabolism, and delivery systems of polymethoxylated flavones on gut microbiota	FSNS Building West, Auditorium, Cook Campus	Host: Deborah Koch
3:30 PM	Fermentation Seminar	Abigail Porter, Dept. of Environmental Sciences, Rutgers University	With a little help from our friends - a story of pharmaceutical biotransformation and syntrophy	MSB Alampi Room Cook Campus	Host: Lindsay Robinson
