

Campus Wide Seminars in Biomedical Sciences

Weekly Calendar

November 6 to November 10, 2017

Time	Activity	Speaker	Seminar Title	Location	Series
Monday, NOVEMBER 6, 2017					
12:00 PM	Seminar	Sally Radovick, MD, Rutgers University, Department of Pediatrics	Kisseptin Regulation of Reproduction and Metabolism	LSB, Auditorium	Host: Dr. Jay Tischfield CHINJ
5:30 PM	Seminar	Carl Germano, Verdant Oasis	Feeding the Subcutaneous Endocannabinoid System: Beautiful and Healthy Skin with Hemp based Phytocannabinoids	LSB, Conference Room 102	Host: CDR Seminar Series
Tuesday, NOVEMBER 7, 2017					
9:15 AM	Seminar	Miguel Cabrera	Fetal Alcohol Exposure Induces Neurotoxic Effects on β -Endorphin Neurons Through Microglial Activation	FS&NS Building West, Room 102	Host: Dipak Sarkar, Ph.D.,
11:00 AM	RBHS Chancellor's Special Lecture Series	Martin J. Blaser, MD, New York University	Perturbing the Early Life Microbiome and the Development of Chronic Diseases	CABM, Room 010	Host: Arnold B. Rabson, MD
12:00 PM	Seminar	Ashwini Ranade		Ernest Mario School of Pharmacy, Room 323A	Host: The Medicinal Chemistry Department at the Ernest Mario School of Pharmacy
12:00 PM	Seminar	Anas Fathallah, PhD, Halozyma Therapeutics Inc.	Subcutaneous Administration of Biologics: Challenges and Opportunities	Ernest Mario School of Pharmacy, Lab for Cancer Research, Room 202	Host: Pharmaceutical Science Program
4:00 PM	Seminar	Tao Pan, PhD, University of Chicago	mRNA and tRNA modifications in the regulation of gene expression	CABM, Room 010	Host: Dr. Nancy Woychik, Basic Science Departments

Campus Wide Seminars in Biomedical Sciences

Weekly Calendar

November 6 to November 10, 2017

Time	Activity	Speaker	Seminar Title	Location	Series
Wednesday, NOVEMBER 8, 2017					
9:00 AM	Symposium	Ilia Raskin, Nicholas Bello , SEBS, Rutgers University, Brandon Alderman , Dept. of Kinesiology and Helath, Rutgers University, Michael Tlusty , University of Massachusetts, Sue Shapses , Dept. Nutritional Sciences, Rutgers University, Derek Sant'Angelo , Dept. of Pediatrics, Rutgers RWJMS, Liping Zhao , Dept. of Biochemistry & Microbiology, SEBS, Rutgers University, Joshua Anthony , Campbell Soup Company	One Nutrition - One Health Symposium Health Effects of Phytochemicals from Food. Consequences of Binge Eating on Food Demand. T.H.E.B.E.S.T. - Target Health , Eat Better, End Sitting Time. Achieving Shared Goals of Sustainability and Conservation. Vitamin D Status and Predicting Mobility and Mortality After Hip Fracture. Adipose Tissue Inflammation-The Role of Adipose-Specific NKT Cells in Obesity and Metabolic Syndrome. Dietry Modulation of Gut Microbiota for Metabolic Health. Keeping it Real: Feeding Consumer Needs at the Intersection of Food, Health and Technology.	IFNH Building, Room 101, Cook Campus	Host: The Rutgers One Nutrition Strategic Initiative
12:00 PM	Seminar	David Perlin, PhD , Rutgers, NJMS	Factors Promoting Multidrug Resistance in Pathogenic Fungi	Proteomics, Room 120	Host: Stephen Burley, IQB
12:30 PM	Seminar	Ensung Junn, PhD , Rutgers University, RWJMS	MicroRNAs in Parkinson's Disease	CAB, Room 1302	Host: Department of Neurology
4:00 PM	Seminar	Pranela Rameshwar, PhD , Rutgers University, NJMS	Dormancy-Reverse Dormancy via Mesenchymal Stem Cell- Derived Exosomes	CINJ, Auditorium	Host: Sunita Chaudhary, PhD

Campus Wide Seminars in Biomedical Sciences

Weekly Calendar

November 6 to November 10, 2017

Time	Activity	Speaker	Seminar Title	Location	Series
Thursday, NOVEMBER 9, 2017					
Friday, NOVEMBER 10, 2017					
9:15 AM	Seminar	Suchismita Ray, PhD, Rutgers University	Effects of Chronic Cocaine Use on Brain Connectivity and Cognition”	Foran Hall, Room 138A, Cook Campus	Host: Nick Bello
12:00 PM	Seminar	Margherita Cantorna, PhD, Penn State University		Nelson, Room D-406	Host: Lauryn Siu, Department of Cell Biology and Neuroscience
12:35 PM	Seminar	Dr. Sarah Pethybridge, Cornell University	Epidemiology and Management of Vegetable Diseases in New York - Research on the Rotten Veg!	Foran Hall, Room 138A, Cook Campus	Host: Nalini Kaul, School of Environmental and Biological Sciences
3:00 PM	Seminar	Jingjing Guo	Prevention of obesity and type 2 diabetes with aged citrus peel extract	FS&NS Building West	Host: Deborah Koch Department of Food Science
3:30 PM	Seminar	Josh Mell, Drexel University	The consequences of competence: The genomics of natural transformation in Haemophilus influenzae	Alampi Room (IMCS Building)	Host: Tamar Barkay, Department of Biochemistry and Microbiology
